## **National Student** **Webinar**

**“Science Teaching Methodologies in  
the 21<sup>st</sup> Century – A Students’ Perspective”**

With educational resources and technology undergoing revolutionary developments, the learning process in the classroom has witnessed a paradigm shift. Digitization of educational resources and emergence of virtual platforms have completely changed the course of teaching and learning. Students are invited to share their views, opinions and perceptions about these changes in learning methods.

### **Important Dates**

- Last date for receiving nominations:  
**25 January 2022**
- Shortlisting and intimation to participants:  
**7 February 2022**
- Webinar: **15 February 2022**

**No Registration Fee**

### **Participation**

Participants must be Indian students (Class IX and XII) nominated by their respective schools.

About 15 students will be shortlisted for the oral presentation in the Webinar on first come basis.

Each student would be given 5 minutes for the presentation.

Concluding remarks will be given by academic experts followed by a Q&A session.

The duly filled scanned nomination form (given below) must be sent to [niscprwebinar@gmail.com](mailto:niscprwebinar@gmail.com).
