Refers to: **RETRACTED** "[2-Amino-5-sulphonyl-1,3,4-thiadiazole derivatives as anticonvulsant agents: Synthesis and evaluation](#)" Indian Journal of Chemistry, Volume 49B, Issue 11, November 2010, page 1531-1534

This article has been retracted at the request of the Editor.

**Reason:** The article bears substantial resemblance with the paper that has already appeared in **Medicinal Chemistry Research, Vol. 18, Number 5, pp. 351-361 (2009)** by Priyabrata Pattanayak, Rajesh Sharma and Prasanta Kumar Sahoo.

This has been pointed out by the co-author (Rajesh Sharma) and the Editor is thankful to him for the same. Dr Rajesh Sharma has communicated to us that the plagiaristic version was published without his knowledge and, as such, wishes to completely dissociate himself from the actions of Priyabrata Pattanayak. We apologize to the readers of the Journal that this was not detected earlier during the submission process and deeply regret any inconvenience caused due to this lapse.
