## Review Article

*Urolithiasis: Phytotherapy as an adjunct therapy*

A Aggarwal, S K Singla & C Tandon

## Papers

*Chlorambucil and ascorbic acid-mediated anticancer activity and hematological toxicity in Dalton's ascites lymphoma-bearing mice*

Suravi Kalita, Akalesh Kumar Verma and Surya Bali Prasad

*Antioxidant and anti-lipid peroxidation activities of *Tamarindus indica* seed coat in human fibroblast cells*

Oranuch Nakchat, Duangdeun Meksuriyen and Sunanta Pongsamart

*Antioxidant potential and oxidative DNA damage preventive activity of unexplored endemic species of *Curcuma***

Iyyappan Rajan, Remitha Rabindran, P R Jayasree & P R M Kumar

*Antidiarrhoeal evaluation of rhizomes of *Cryptocoryne spiralis* Fisch. ex Wydler: Antimotility and antisecretory effects*

Satyendra K Prasad, Damiki Laloo, Rajesh Kumar, Alakh N Sahu & S Hemalatha

*Hepatoprotective activity of *Oxalis corniculata* L. ethanolic extract against paracetamol induced hepatotoxicity in Wistar rats and its in vitro antioxidant effects*

G Sreejith, M Jayasree1, P G Latha, S R Suja, S Shyamal, V J Shine, G I Anuja, S Sini, P Shikha, N M Krishnakumar, V Vilash, S Shoumya & S Rajasekharan

*Role of *Triticum aestivum* aqueous extract in glucocorticoid induced osteoporosis in rats*

David Banji, Otilia J.F. Banji, Vijaya Laxmi Chiluka & Saidulu Abbagoni
Effect of feeding graded doses of Citrinin on clinical and teratology in female Wistar rats

A novel assay method for calcium calmodulin dependent phosphatase from bovine brain extract
K S Devaraju, B S Mohan Kumar, S V Sureshbabu, A Gopi, R Saraswathi & B M Harish

Mating latency, duration of copulation and fertility in four species of the Drosophila bipectinata complex
Akanksha Singh & Bashisth N Singh

Androgenesis in chickpea: Anther culture and expressed sequence tags derived annotation
Sameera Sastry Panchangam, Nalini Mallikarjuna, Pooran M. Gaur & Prashanth Suravajhala

**NISCAIR Policy on Plagiarism**

The system of formal communication in science through publication in primary journals is based on originality and quality of information being the only criteria for publication. However, there have been tendencies to misuse the system and vitiate the process of science communication for personal benefits. One of the ills afflicting science communication is plagiarism. Attempts at plagiarism may range from verbatim, copying of extensive material of other authors, misappropriating results/data of others with minor changes in language/presentation without giving credit to original source, to publish essentially the same information more than once.

As the premier publisher in India of primary scientific journals in various disciplines of science and technology, NISCAIR strongly reiterates its policy of discouraging plagiarism of all kinds. All efforts are made detect and frustrate attempts at plagiarism through editorial screening and rigorous peer review in respect of communications received for publication in NISCAIR publications. Cooperation of the scientific community is sought in our efforts to frustrate all attempts at plagiarism.

It is mandatory on the part of the corresponding author to furnish the following certificate at the time of submission of the manuscript for publication:

[This is to certify that the reported work in the article entitled, “(give full title with all the authors name)” submitted for publication in the journal, the…………………… is an original one and has not been submitted for publication elsewhere. I/we further certify that proper citation to the previously reported work have been given and no data/table/figures have been quoted verbatim from other publications without giving due acknowledgement and without the permission of the author(s). The consent of all the authors of this article has been obtained for submitting the article to the journal, “……………."

Signatures and names of all the authors]

In case any attempt to plagiarize is brought to our attention accompanied with convincing evidence, following steps would be taken:
(a) After consulting the respective Editorial Board Members, authors guilty of plagiarism will be debarred from publishing their papers in NISCAIR journals
(b) Heads of the departments/institutes of the offending authors will be intimated of such incidences of plagiarism.
(c) Such incidents of plagiarism will be publicized through the concerned NISCAIR journals in consultation with the respective Editorial Board Members.
