Indian Journal of Fibre & Textile Research

VOLUME 27  NUMBER 2  JUNE 2002

CONTENTS

Investigations into homogeneity of coir fibres
P K Banerjee, R Chattopadhyay & A Guha

Influence of some test parameters on friction in acrylic fibres
K R Salhotra, R V M Gowda & S M Ishtiaque

Twist structure of friction-spun yarns: Part I—Open-end DREF-II yarns
K R Salhotra, R Chattopadhyay, S Dhamija & R C D Kaushik

Low stress behaviour of jet-spun yarn
A Mukhopadhyay, I C Sharma & Abhishek Saha

Apron slippage in ring frame: Part II—Factors affecting apron slippage and their effect on yarn quality
A Das, P Yadav & S M Ishtiaque

Influence of yarn structure, sizing ingredients and type of sizing on properties and performance of sized yarns: Part II—A comparative study of sized yarn performance for ring- and rotor- spun cotton yarns
A K Sengupta, P Pratihar, P D Kimothi, S Vernekar & M M Alamgir Sayeed

Influence of yarn structure, sizing ingredients and type of sizing on properties and performance of sized yarns: Part III — A study of attrition during weaving for air-jet, ring and rotor yarns on a modern high speed weaving machine
A K Sengupta, P Pratihar, P D Kimothi, S Vernekar & M M Alamgir Sayeed

Properties of polyester/ wool parent and air-jet textured yarns and their fabrics
V K Kothari & S K Bari

Improvement in surface-related properties of poly(ethylene terephthalate)/ cotton fabrics by glow-discharge treatment
T Öktem, N Seventekin, H Ayhan & E Pişkin

Crease-resistant finishing of jute fabric using polycarboxylic acids
A Bagchi & S G Saha

Weighting of silk by graft copolymerization technique
S R Karmakar, S Mandal, K Das, D Sadhukhan, S Ghosh & R Manna

Alternative reducing system for dyeing of cotton with sulphur dyes
R B Chavan & Shirishkumar Vhanbatte
Synthesis of substituted benzyl ethers and their moth proofing activity against wool pest
*Anthrenus flavipes* Le Conte
Chandrashekhar Waman Acharya & Vidhya Joshi

Thermal studies on cellulose cyclohexenephosphonate in air
J B Dahiya & Sushila

**Short Communication**

Property modification of *Antheraea assama* silk fibre through graft copolymerization
A M Das, C N Saikia & S Hussain

**Review Article**

Solvent-induced modifications in poly(ethylene terephthalate) structure, properties and
dyeability
D Chidambaram, R Venkatraj & P Manisankar
