CONTENTS

Comparative analysis of regression and ANN models for predicting drape coefficient of handloom fabrics
Ashis Mitra, Abhijit Majumdar, Prabal Kumar Majumdar & Debamalya Banerjee — 313

Micro-encapsulation and nano-encapsulation of denim fabrics with herbal extracts
M Sumithra & N Vasugi Raaja — 321

Production of polypropylene melt blown nonwoven fabrics: Part II — Effect of process parameters
Zhao Bo — 326

A simple yarn hairiness measurement setup using image processing techniques
D Yuvaraj & Ramesh Chandran Nayar — 331

Performance characteristics of viscose ring and air-jet spun yarns as a consequence of draw frame speed and its preparatory process
G K Tyagi & S Shaw — 337

Effect of yarn twist on mechanical properties of glass fibre reinforced composite rods
A Jebastin Rajwin, V R Giridev & M Renukadevi — 343

Effect of electric field on mulberry (bivoltine) and tassar fibres
G N Siddaraju, H T Ananda, H Somashekarappa & R Somashekar — 347

Studies on torsional rigidity of mulberry and non-mulberry silks
Jameela Khatoon, B V Vasumathi & Arindam Basu — 353

Almond shell as a natural colorant
Özlenen Erdem İşmal & Leyla Yıldırım — 358

Polyfunctional finishes on cotton textiles
A Edwin Sunder & G Nalankilli — 364

Colorimetric studies of heterocyclic monoazo dyes on various fibres
Nikhil M Parekh & Kalpana C Maheria — 372
Short Communications

Effect of filament pre-tension on the performance of solo-sirofil composite yarn
Rui-Hua Yang, Wei-Mian Wu, Yu-Qin Wan, Hong-Bo Wang, Wei-Dong Gao, Chun-Ping Xie & Shan-Yuan Wang

Horizontal liquid spreading behaviour of hybrid yarn woven fabric using embedded image analysis principle
D Raja, C V Kouhik, G Ramakrishnan, V Ramesh Babu & V Subramaniam

A preliminary investigation on kapok/polypropylene nonwoven composite for sound absorption
A Veerakumar & N Selvakumar

Antimicrobial effectiveness of *Vitex negundo* leaf extracts
S Mohanraj, P Vanathi, N Sowbarniga & D Saravanan

Annual Index
