ANNUAL INDEX

Abd-Aleem S See El-Alfi S
Acidic environment
Effect of acidic environment on slate durability of iron ore — An experimental approach
Adgaonkar C S See Meghal Priya See Ubale S K
Adiabatic gasification
Effect of temperature and air feed rate on adiabatic gasification of Okaba sub-bituminous coal in Nigeria
Agrawal C S See Meghal Priya See Ubale S K
Air feed rate
Effect of temperature and air feed rate on adiabatic gasification of Okaba sub-bituminous coal in Nigeria
Akinbode F O See Soji Adeyinka J
Ali A H See Helmy I M
Alloys
Additive and inhibitor effect study on corrosion behaviour of nickel-zinc alloys
Casting and characterisation of Al-1.2 Si-Sn alloys
Corrosion behaviour of sintered ferrous alloys and Ferro-TiC in H2SO4 and NaCl solutions
Aluminium composites
Preparation and properties of Al2O3/Al in-situ composites by reactive melt penetration
Angra S K
Design of electron cyclotron resonance based reactive ion etching system
Anharmonic phonon-electron problem
Anharmonic phonon-electron problem in high temperature superconductors
Annapurna S See Harsha S
Antimony
Spectroscopic investigation of BiSe, SbSe compounds and BiSbS(x)Sex(1-x) solid solutions
Anyangwu E E
Computer prediction of the performance of a solar powered solid adsorption refrigerator in some Nigerian cities
Arrivolu D See Kanchana G
Aspect ratio
Effect of aspect ratio and curvature on characteristics of S-shaped diffusers
Austin Suthanthiraraj S
Electrical characterization of superionic materials in the system (Cu1-xAgxI)-(Ag2O)-(P2O5), (0.05<x<0.25) for solid state batteries
Phase identification and electrochemical impedance studies on the ternary system (CdI2)(Ag2O)(MoO3)(100-a) (20<ca<80)
Axisymmetric free jet
Experimental and numerical investigation of an axisymmetric free jet
Bajpai R P See Angra S K
Banumathi Arabindoo See Shankar M V
Battery
Electrical characterization of superionic materials in the system (Cu1-xAgxI)-(Ag2O)-(P2O5), (0.05<x<0.25) for solid state batteries
Beam
Vertical cracks of structural concrete beams under short-term load with unloading
Bi-axial loading
Fracture toughness in bi-axial loading — Critical crack and validity condition
Binder
A comprehensive study on some binders for piezoelectric ceramics
Bismuth
Spectroscopic investigation of BiSe, SbSe compounds and BiSbS(x)Sex(1-x) solid solutions
Blast furnace
Effect of sodium sulphate on the hydration of granulated blast furnace slag blended portland cement
Boat, concrete
Manufacturing of small sized fibre reinforced concrete boats
Boat tail configurations
Dynamic studies of a typical payload fairing for different boat tail configurations
Book Reviews
Material Marvels by B C Sharma: reviewed by C S Gupta
Brahimbhat Ragesh B
Synthesis and characterisation of IPP-g-glycidylmethacrylate copolymer
Cantilever column
   Revisit to the stability of a uniform cantilever column subjected to Euler and Beck loads—Effect of realistic follower forces

Casting
   Casting and characterisation of Al-1.2 Si-Sn alloys

Catalytic cracking
   Treated fly ash: A potential catalyst for catalytic cracking

CdIn2S4 thin films
   Preparation of CdIn2S4 thin films by chemical method

Cement
   Effect of silica fume on the chloride and sulphate attack of sulphate resisting and high alumina cement composite

Centrifuge rubber latex concentration unit
   Determination of mass transfer coefficient for the waste water from a centrifuge rubber latex concentration unit

Ceramics
   A comprehensive study on some binders for piezoelectric ceramics
   Silicon nitride/SiAI03 ceramics—A review

Chalcogenides
   Study of knoop hardness of tin chalcogenides

Chandra R See Kumar D

Chaurab Fabien See Seshadri V

Charge decay
   Charge decay and relaxation times in electrets

Chloride
   Effect of silica fume on the chloride and sulphate attack of sulphate resisting and high alumina cement composite

Choudary Shompa See Raju C B

Choudhary R N P See Choudhary S N

Choudhary S N
   Structural and dielectric properties of KTi0PO4 ceramic

Coal
   Effect of temperature and air feed rate on adiabatic gasification of Okaba sub-bituminous coal in Nigeria

Concrete beam
   Diagonal cracks of structural concrete beams under short-term load with unloading
   Vertical cracks of structural concrete beams under short-term load with unloading

Concrete boat
   Manufacturing of small sized fibre reinforced concrete boats

Conference Report
   Sintering 2000: Conference Report

Convection
   Effect of non-uniform temperature gradient and magnetic field on the onset of convection in fields with suspended particles under microgravity condition

Convex cylindrical surfaces
   Turbulence measurements in three-dimensional wall jets on convex cylindrical surfaces

Copolymers
   Synthesis and characterisation of IPP-g-glycidylmethacrylate copolymer

Corrosion
   Additive and inhibitor effect study on corrosion behaviour of nickel-zinc alloys
   Corrosion behaviour of sintered ferrous alloys and Ferro-TiC in H2SO4 and NaCl solutions

Crack propagation
   Effect of frequency and stress ratio on fatigue crack propagation of glass phenolic composite

Cracking, catalytic
   Treated fly ash: A potential catalyst for catalytic cracking

Critical crack and validity condition
   Fracture toughness in bi-axial loading—Critical crack and validity condition

Cryotreated tool steels
   An experimental investigation on the mechanism of wear resistance improvement in cryotreated tool steels

Curing epoxy resin
   Spectroscopic studies on curing of novolac epoxy resin — Polyamide and polyamine hardener systems in presence of polysulphide

Curvature
   Effect of aspect ratio and curvature on characteristics of S-shaped diffusers

Cyclic compression
   Influence of strain rate and cyclic compression on physico-mechanical behaviour of rock

Cylindrical surface
   Turbulence measurements in three-dimensional wall jets on convex cylindrical surfaces

Dash S K See Pati S P

Data mining
   Development of soft computing models for data mining

Debata M
   Corrosion behaviour of sintered ferrous alloys and Ferro-TiC in H2SO4 and NaCl solutions

Degradation, photocatalytic
   Kinetics of photocatalytic degradation of textile dye reactive red 2

Devaradane G
   Effect of spilt injection on diesel engine pollutants using multi-zone model

Devpure Rajneesh See Gupta Vineet

Dhaliwal Amarjit S
   Charge decay and relaxation times in electrets

Dhandapani S See Nedunchezhiyan N

Diagonal cracks
   Diagonal cracks of structural concrete beams under short-term load with unloading

INDEX
Dielectric properties
Influence of WO3 on dielectric properties of zinc phosphate glasses
Structural and dielectric properties of KTiOP04 ceramic

Diesel engine
Effect of spill injection on diesel engine pollutants using multi-zone model

Diffusers
Effect of aspect ratio and curvature on characteristics of S-shaped diffusers

Dimri A Kr See Singh A P

Durba V S B See Lakshmana Gowda B H

Dwivedi Chandra Shekhar See Kehar Singh

Electrical properties
Electrical properties of Mo03 films

Electrical characterization
Electrical characterization of superionic materials in the system (Cu1-xAgx)(Ag2O)-(P2O5), (0.05<x<0.25) for solid state batteries

Electrochemical impedance studies
Phase identification and electrochemical impedance studies on the ternary system (Cd12a)(Ag2O),(Mo03)(100-a) (20<ca<80)

Electron cyclotron resonance
Design of electron cyclotron resonance based reactive ion etching system

Etching
Design of electron cyclotron resonance based reactive ion etching system

Euler and Beck loads
Revisit to the stability of a uniform cantilever column subjected to Euler and Beck loads—Effect of realistic follower forces

Fatigue crack propagation
Effect of frequency and stress ratio on fatigue crack propagation of glass phenolic composite

Ferroelectric (lead titanate) doped zinc-borate glasses
Transport properties of ferroelectric (lead titanate) doped zinc-borate glasses

Ferrous alloy
Corrosion behaviour of sintered ferrous alloys and Ferro-TiC in H2SO4 and NaCl solutions

Fibre reinforced concrete boat
Manufacturing of small sized fibre reinforced concrete boats

Films, Mo03
Electrical properties of Mo03 films

Flocculation
Selective flocculation separation of iron and titanium from Kutch kaolins (India) 170

Fly ash
Treated fly ash: A potential catalyst for catalytic cracking 100

Follower forces
Revisit to the stability of a uniform cantilever column subjected to Euler and Beck loads—Effect of realistic follower forces 123

Fracture toughness
Fracture toughness in bi-axial loading—Critical crack and validity condition 13

Free convection
Viscous heating in free convection along a plate in presence of magnetic fields 347

Fritless Ag thick film metallisation
Microwave related properties of fritless Ag thick film metallisation and effect of long-term air exposure 366

Gajbir Singh See Venkateswaru Rao G

Ganesan V See Viswanath K B S N

Ganeshkumar A C See Austin Suthanthiranajar S

Gasification
Effect of temperature and air feed rate on adiabatic gasification of Okaba sub-bituminous coal in Nigeria 239

Gehlot Rohit Kumar See Tak S S

Germanium
X-ray diffraction studies of Ga2Tc3 46

Ghose A K See Pathak J P

Ghose M K
Investigation of soil engineering properties for safe design and construction of the iron ore tailing dam 318

Glass fibre reinforced composite
Effect of structure of nadimides on properties of glass fibre reinforced composites 165

Glass phenolic composite
Effect of frequency and stress ratio on fatigue crack propagation of glass phenolic composite 285

Glasses
Effect of sodium sulphate on the hydration of granulated blast furnace slag blended portland cement 110

Gupta Vineet
Effect of aspect ratio and curvature on characteristics of S-shaped diffusers 141

Hardener system
Spectroscopic studies on curing of novolac epoxy resin—Polyamide and polyanine hardener systems in presence of polysulphide 381

Magnetic field
Effect of non-uniform temperature gradient and magnetic field on the onset of convection in fields with suspended particles under microgravity condition
Viscous heating in free convection along a plate in presence of magnetic fields
Mahajan R R See Makashir P S
Makashir P S
Spectroscopic studies on curing of novolac epoxy resin—Polyamide and polynylamine hardener systems in presence of polysulphide
Mallikarjuna N N
Low temperature synthesis of MoO3 through the use of NH2OH.HCl as reducing agent
Mann K S See Dhaliwal Amarjit S
Martin Krizma
See Tereza Nurnbergerova
Maruthamuthu P See Austin Suthanthiraj S
Mass transfer coefficient
Determination of mass transfer coefficient for the waste water from a centrifuge rubber latex concentration unit
Materials
Electrical characterization of superionic materials in the system (Cu1-xAgx)O-(Ag2O)-(P2O5), (0.05 < x < 0.25) for solid state batteries
Meghal Priya
Microwave absorption study in some iodine doped polyblends
Menon S K See Kumar G V S S
Metallisation
Microwave related properties of fritless Ag thick film metallisation and effect of long-term air exposure
Microgravity condition
Effect of non-uniform temperature gradient and magnetic field on the onset of convection in fields with suspended particles under microgravity condition
Microwave absorption
Microwave absorption study in some iodine doped polyblends
Mishra R See Seshadri V
Mitra S C K See Sharma S K
Mohan Lal D See Satish Kumar M
Molybdenum
Electrical properties of MoO3 films
Monjezi M See Singh T N
Multi-sized particulate solid-liquid flow
Hold-up in multi-sized particulate solid-liquid flow through horizontal pipes
Merugesan V See Shankar M V
Nadimides
Effect of structure of nadimides on properties of glass fibre reinforced composites
Naidu B S See Srinivasa Rao K
Namwar Singh See Singh N B

Effect of in-cylinder coating on the performance of a two-stroke spark ignition engine
Neelam Singh See Singh N B
Neelam Singh
Effect of sodium sulphate on the hydration of granulated blast furnace slag blended Portland cement
Neppolian B See Shankar M V
Nickel-zine alloys
Additive and inhibitor effect study on corrosion behaviour of nickel-zinc alloys
Nirbhay Singh
Effect of frequency and stress ratio on fatigue crack propagation of glass Phenolic composite
Novolac epoxy resin
Spectroscopic studies on curing of novolac epoxy resin—Polyamide and polynylamine hardener systems in presence of polysulphide
Oguoke N V See Anyanwu E E
Ojha Keka
Treated fly ash: A potential catalyst for catalytic cracking
Optical waveguiding
Optical waveguiding in vacuum deposited polyaniline thin films
Ores
Effect of acidic environment on slate durability of iron ore—An experimental approach
Palanichamy M See Shankar M V
Pandya G R
Study of knoop hardness of tin chalcogenides
Panigrahi P See Pathak J P
Parallelism
Measure of parallelism for in-parallel robotic structures
Parshant Kumar See Angra S K
Patel Alpesh C See Brahmbhatt Ragesh B
Pathak J P
Casting and characterisation of Al-1.2 Si-Sn alloys
Pathan H M See Sankapal B R
Pathan H M
Preparation of CdTeS thin films by chemical method
Pati S P
High frequency positive series resistance in IMPATT devices
Payload fairing
Dynamic studies of a typical payload fairing for different boat tail configurations
ANNUAL INDEX

Phase identification
Phase identification and electrochemical impedance studies on the ternary system (CdI2)(Ag2O)(MoO3)(100-a)(20<=a<=80)

Phonon
Anharmonic phonon-electron problem in high temperature superconductors

Photocatalytic degradation
Kinetics of photocatalytic degradation of textile dye reactive red 2

Physico-mechanical behaviour
Influence of strain rate and cyclic compression on physico-mechanical behaviour of rock

Piezo-electric ceramics
A comprehensive study on some binders for piezoelectric ceramics

Pollutant
Effect of split injection on diesel engine pollutants using multi-zone model

Polyaniline thin films
Optical waveguiding in vacuum deposited polyaniline thin films

Polyanilines
Thermal behaviour of synthetic metals: Polyanilines

Polyblend
Microwave absorption study in some iodine doped polyblends

Polysulphide
Spectroscopic studies on curing of novolac epoxy resin — Polyamide and polyaniline hardener systems in presence of polysulphide

Portland cement
Effect of sodium sulphate on the hydration of granulated blast furnace slag blended portland cement

Hydration of rice husk ash blended portland cement

Pradhan Narayan C See Ojha Keaka

Prasad K See Choudhary S N

Puri Vijaya
Microwave related properties of fritless Ag thick film metallisation and effect of long-term air exposure

Radhakrishnan V M
Fracture toughness in bi-axial loading—Critical crack and validity condition

Rahim A
Manufacturing of small sized fibre reinforced concrete boats

Rajaram S See Ramamurti V

Rajeev Kumar See Singh S S

Raju C B
Silicon nitride/SiAlON ceramics—A review

Ramamurti V
Dynamic studies of a typical payload fairing for different boat tail configurations

Rane S V See Puri Vijaya

Rao A C
Measure of parallelism for in-parallel robotic structures

Reactive ion etching system
Design of electron cyclotron resonance based reactive ion etching system

Realistic follower forces
Revisit to the stability of a uniform cantilever column subjected to Euler and Beck loads—Effect of realistic follower forces

Reducing agent
Low temperature synthesis of MoO3 through the use of NH2OH.HCl as reducing agent

Refrigerator
Computer prediction of the performance of a solar powered solid adsorption refrigerator in some Nigerian cities

Reinforced composites
Effect of structure of nadimides on properties of glass fibre reinforced composites

Reinforced concrete boat
Manufacturing of small sized fibre reinforced concrete boats

Relaxation time
Charge decay and relaxation times in electrets

Renganarayanan S See Satish Kumar M

Rice husk ash blended portland cement

Hydration of rice husk ash blended portland cement

Robotic structure
Measure of parallelism for in-parallel robotic structures

Rocks
Influence of strain rate and cyclic compression on physico-mechanical behaviour of rock

Shear behaviour of jointed rockmass of sandstone quarry, Mizoram State, India

S-shaped diffusers
Effect of aspect ratio and curvature on characteristics of S-shaped diffusers

Sah M N See Raju C B

Sandstone quarry
Shear behaviour of jointed rockmass of sandstone quarry, Mizoram State, India

Sangawar S R
A comprehensive study on some binders for piezoelectric ceramics

Sankapal B R See Pathan H M

Growth of multilayer Bi2Se3-Sb2Se3 thin films by SILAR technique

Sarita Rai
See Neelam Singh

Sarwade D B See Sangawar S R
Satish Kumar M
An experimental investigation on the mechanism of wear resistance improvement in cryotreated tool steels
255

Satpathy S, See Pati S P
Sawmiliana C, See Singh T N
Selenium
Spectroscopic investigation of BiSel, SbSel compounds and BiSbS(x)Se(1-x)I solid solutions
375

Sen P K, See Ghose M K
Seshadri V, See Gupta Virendra
Seshadri V
Hold-up in multi-sized particulate solid-liquid flow through horizontal pipes
147

Shah N R, See Pandya G R
Shah R C, See Pandya G R
Shankar M V
Kinetics of photocatalytic degradation of textile dye reactive red 2
104

Shanmugam A, See Sivanandam S N
Sharma S K
Optical waveguiding in vacuum deposited polyamiline thin films
377

Sharma V K, See Sharma S K
Shear behaviour
Shear behaviour of jointed rockmass of sandstone quarry, Mizoram State, India
66

Siddhewar P G
Effect of non-uniform temperature gradient and magnetic field on the onset of convection in fields with suspended particles under microgravity condition
327

SILAR technique
Growth of multilayer Bi2Se3-Sb2Se3 thin films by SILAR technique
223

Silica fume
Effect of silica fume on the chloride and sulphate attack of sulphate resisting and high alumina cement composite
228

Silicon nitride/SiAlON ceramics
Silicon nitride/SiAlON ceramics—A review
36

Silver
Microwave related properties of fritless Ag thick film metallisation and effect of long-term air exposure
366

Singh A P
Anharmonic phonon-electron problem in high temperature superconductors
219

Singh D P
X-ray diffraction studies of Ga2Te3
46

Singh N B, See Neelam Singh
Singh N B
Hydration of rice husk ash blended portland cement
235

Singh S N, See Gupta Virendra
Singh S S, See Seshadri V
Singh S S
Effect of grain size on the transmission of zinc sulphide windows in the 8-12 µm range of infrared
18

Singh T N
Effect of acidic environment on slake durability of iron ore—An experimental approach
182

Srivastava Anju
Effect of structure of naldimides on properties of glass fibre reinforced composites
165

Steel
An experimental investigation on the mechanism of wear resistance improvement in cryotreated tool steels
198

Strain rate
Influence of strain rate and cyclic compression on physico-mechanical behaviour of rock
8
ANNUAL INDEX

Stress ratio
Effect of frequency and stress ratio on fatigue crack propagation of glass phenolic composite

Structural concrete beam
Vertical cracks of structural concrete beams under short-term load with unloading

Subbalakshmi P
Influence of WO3 on dielectric properties of zinc phosphate glasses

Submerged horizontal cylinders
Experimental investigation of wave forces on submerged horizontal cylinders

Sulphate
Effect of silica fume on the chloride and sulphate attack of sulphate resisting and high alumina cement composite

Sumathi S See Sivanandam S N

Superconductors
Anharmonic phonon-electron problem in high temperature superconductors

Superionic materials
Electrical characterization of superionic materials in the system (Cu1-xAgx)(Ag2O)(P2O5), (0.05<x<0.25) for solid state batteries

Suresh Naidu A See Singh T N
Suspended particles
Effect of non-uniform temperature gradient and magnetic field on the onset of convection in fields with suspended particles under microgravity condition

Synthetic metals
Thermal behaviour of synthetic metals: Polyanilines

Thick film metallisation
Microwave related properties of fritless Ag thick film metallisation and effect of long-term air exposure

Thin films
Growth of multilayer Bi2Se3-Sb2Se3 thin films by SILAR technique

Optical waveguiding in vacuum deposited polyaniline thin films

Preparation of CuIn2S4 thin films by chemical method

Tin chalcogenides
Study of knoop hardness of tin chalcogenides

Titanium
Selective flocculation separation of iron and titanium from Kutch kaolins (India)

Tool steel
An experimental investigation on the mechanism of wear resistance improvement in cryotreated tool steels

Transmission
Effect of grain size on the transmission of zinc sulphide windows in the 8–12 μm range of infrared

Transport properties
Transport properties of ferroelectric (lead titanate) doped zinc-borate glasses

Tripathi K N See Sharma S K

Turbulence measurements
Turbulence measurements in three-dimensional wall jets on convex cylindrical surfaces

Two-stroke spark ignition engine
Effect of in-cylinder coating on the performance of a two-stroke spark ignition engine

U balance S See Meghal Priya
Ubalance S K
Transport properties of ferroelectric (lead titanate) doped zinc-borate glasses

Uniform cantilever column
Revisit to the stability of a uniform cantilever column subjected to Euler and Beck loads—Effect of realistic follower forces

Unloading
Diagonal cracks of structural concrete beams under shot-term load with unloading

Vertical cracks of structural concrete beams under short-term load with unloading

Textile dye reactive red 2
Kinetics of photocatalytic degradation of textile dye reactive red 2

Thermal behaviour
Thermal behaviour of synthetic metals: Polyanilines

Vats R P See Singh A P
Veeraiah N See Subbalakshmi P
Venkataraman A See Mallikarjuna N N

INDEX
Venkateswara Rao G  See Ramamurti V
Venkateswara Rao G
Revisit to the stability of a uniform cantilever column subjected to Euler and Beck loads—Effect of realistic follower forces

Venkateswara Rao V
Preparation and properties of Al2O3/Al in-situ composites by reactive melt penetration

Verma I K  See Srivastava Anju
Verma S  See Raju C B
Vertical cracks
Vertical cracks of structural concrete beams under short-term load with unloading

Viscous heating
Viscous heating in free convection along a plate in presence of magnetic fields

Viswanath K B S N
Experimental and numerical investigation of an axisymmetric free jet

Vora S B  See Kumar G V S S
Vyas S M  See Pandya G R
Wall jets
Turbulence measurements in three-dimensional wall jets on convex cylindrical surfaces

Waste water
Determination of mass transfer coefficient for the waste water from a centrifuge rubber latex concentration unit

Wave forces
Experimental investigation of wave forces on submerged horizontal cylinders

Wear resistance improvement
An experimental investigation on the mechanism of wear resistance improvement in cryotreated tool steels

X-ray studies
X-ray diffraction studies of Ga2Te3

Zinc-borate glass
Transport properties of ferroelectric (lead titanate) doped zinc-borate glasses

Zinc-nickel alloy
Additive and inhibitor effect study on corrosion behaviour of nickel-zinc alloys

Zinc phosphate
Influence of WO3 on dielectric properties of zinc phosphate glasses

Zinc sulphide window
Effect of grain size on the transmission of zinc sulphide windows in the 8-12 μm range of infrared
