Modeling on sound transmission loss of jute needle-punched nonwoven fabrics using central composite rotatable experimental design
Surajit Sengupta

Effect of tensile fatigue cyclic loads on bagging deformation of elastic woven fabrics
B Baghaei, M Shanbeh & A A Ghareaghaji

Compressional and recovery behaviour of highloft nonwovens
Dipayan Das & Behnam Pourdeyhimi

Predicting strength transfer efficiency of warp and weft yarns in woven fabrics using adaptive neuro-fuzzy inference system
Zulfiqar Ali Malik, Mumtaz Hassan Malik, Tanveer Hussain & Anwaruddin Tanwari

Design and development of signal sensing equipment for measuring light transmission efficiency of POF fabrics
L Ashok Kumar, C Vigneswaran & T Ramachandran

Tensile properties of turmeric fibre reinforced polyester composites
N Srinivasababu, K Murali Mohan Rao & J Suresh Kumar

Effect of bio-carbonization of coarse wool on its dyeability
H El-Sayed, L El-Gabry & F Kantouch

Studies on enzymatic pretreatment of linen
A K Patra, Amit Madhu & J N Chakraborty

Comfort characteristics of cotton fabrics finished with fluoro-alkyl nano lotus finish
C S Viswanath & T Ramachandran

Study on different reducing agents for effective vat dyeing on cotton fabric
P Santhi & J Jeyakodi Moses

Combined scouring-bleaching of cotton using potassium persulphate
A I Wasif & Y M Indi
Short Communications
An apparatus for measuring the sub-nozzle efficiency of air-jet weaving machine
   Magdi El-Messiry & Shaimaa Youssef

Electromagnetic shielding tester for conductive textile materials
   R Perumalraj, G Nalankilli, T R Balasaravanan, K Roshanraja,
   G Shyamsundar & B S Dasaradan

Annual Index
