## CONTENTS

Comparing the packing densities of yarns spun by ring, compact and vortex spinning systems using image analysis method Musa Kilic, R Befru Buyukbayraktar, Gonca B Kilic, Sehiban Aydin & Nazan Eski	351
Drafting force measurement and its relation with break draft and short term sliver irregularity Qasim Siddiqui & Chongwen Yu	358
Extraction and characterization of silk sericin Deepti Gupta, Anjali Agrawal & Abhilasha Rangi	364
Drape analysis of fabrics used for outerwear Vitalija Masteikaitė, Virginija Sacevičienė, Danguolė Janulevičienė, Gulnar Igembayeva & Maira Nurzhasarova	373
Evaluating performance characteristics of different fusible interlinings K Phebe, K Krishnaraj & B Chandrasekaran	380
Thermoregulatory characteristics of bamboo/lyocell union fabrics P Kandhavadi, R Rathinamoorthy & R Surjit	386
Estimating the deflection of weft yarn in plain woven fabric using yarn pull out test Mohammad Ghane & Vahid Zarezadeh Lari	394
Anti-bacterial properties of lactoferrin immobilized wool fabric Xue Han, Yuanyuan Yu, Qiang Wang, Xuerong Fan, Li Cui & Ping Wang	401
Dyeing of cotton fabrics using reactive dyes by microwave irradiation technique K Haggag, M M El-Molla & Z M Mahmoud	406
Imparting anti-shrink functionality to wool by individual and simultaneous application of keratinase and papain J N Chakraborty & P P S Madan	411
Multifunctional finishes on cotton textiles using combination of chitosan and polycarboxylic acids Athisayam Edwin Sunder, Govindan Nalankilli & N K Palani Swamy	418

**Short Communications**

- Effect of nano-polysiloxane based finishing on handle properties of jute blended fabric  
Ammayappan Lakshmanan, Sanjoy Debnath & Surajit Sengupta 425
- Preparation of ultra-porous UPM/PHBV nanofibres using solvent-etching technology and drug-loading efficiency  
Lanming Jin, Gaoming Jiang & Shuiping Liu 430
- Effect of spinning variables on packing density of cotton yarn  
U Hussain, A Sarwar, A R Shafqat, M Muzaffar, M Iqbal, N Zahra, F Ahmad & T Hussain 434
- Numerical analysis of the slub yarn breaking strength using finite element method  
Xuzhong Su, Weidong Gao, Xinjin Liu, Chunping Xie & Ye Zhu 437

**Review Articles**

- High active sportswear – A critical review  
M Manshahia & A Das 441
- Cooling garments—A review  
Soumyajit Sarkar & V K Kothari 450

**Conference Report**

- International conference on natural fibres (Theme: jute and allied fibres)  
Surajit Sengupta, Gautam Bose, Deb Prasad Ray & Debasis Nag 459

**Corrigendum**

464

**Annual Index**
