CONTENTS

Crystal and molecular structure of muga wild silk fibres based on [Ala-Gly]ₙ sequence using LALS technique
G Thejas Urs, H T Ananda, M B Nanda Prakash, K Byrappa & R Somashekar

Effect of twist level and twist direction of core (double) yarn on dref-3 spun yarn
N R Halari, A K Rakshit, S K Chattopadhyay & M Bhowmick

Embedding aromatherapy essential oils into textile fabric using β-Cyclodextrin inclusion compound
Subhas Ghosh & Natalie Chipot

Effect of yarn twisting and de-twisting on comfort characteristics of fabrics
Ayano Koyrita Banale & R Chattopadhyay

Capillary rise kinetics on woven fabrics – Experimental and theoretical studies
Mohamed Hamdaoui & Sassi Ben Nasrallah

Properties of jute-cotton union fabrics through wet processing treatments: Part II—Double cloth structures with jute weft in subdued form
Milind Koranne, D P Chattopadhyay & Hiren Jaiswal

Liquid transfer properties and drying behavior of plated knitted fabrics with varying fibre types
Y Jhanji, D Gupta & V K Kothari

Influence of special finishes on denim properties
T Dekanić, T Pušić & I Soljačić

Long-lasting UV protection and mosquito repellent finish on bamboo/tencel blended fabric with microencapsulated essential oil
R Geethadevi & V Maheshwari

Efficacy of natural dye from Gerardiana diversifolia on pashmina (Cashmere) shawls
Ajay Kumar, A S M Raja, D B Shakyawar, P K Pareek & D Krofa

Effect of various mordants in Kum dyed cotton, silk and woollen yarns
Joyalani Devi Saikhom, Kumar Singh Potsangbam & Manabendra Dutta Choudhury

Preparation and characterization of starch/cellulose composite
Sherif Mohamed Abdel Salam Keshk, Elsayed Yousef & Ahemd Omran
Short Communications

Relationship among seam strength, weft-way fabric strength and stitch density of B. Twill jute bag
Palash Paul, Partha Sanyal, Soumita Chowdhury, Gopal Mukhopadhyay, D P Gon & Koushik Das
195

Antimoth finishing treatment for woollens using tannin containing natural dyes
D B Shakyawar, A S M Raja, Ajay Kumar & P K Pareek
200

Measurement of yarn density in woven fabrics using fringe projection moiré techniques
Nazanin Ezazshahabi, Masoud Latifi, Mohammad Amani Tehran & Khosro Madanipour
203

Automatic pattern segmentation of jacquard warp-knitted fabric based on
hybrid image processing methods
Yang Zhang, Gaoming Jiang, Junzhou Yao & Youcheng Tong
208

Antiseptic treatment for human foot wounds using piper betel extract finished bamboo/cotton fabrics
K Ramya & V Maheshwari
213

Conference/Workshop Reports

One day national seminar on application of emerging technology of jute geotextiles
in civil engineering
Swapan Kumar Ghosh, Rajib Bhattacharyya, Ashik Paul & Tapobrata Sanyal
217

Institute-industry interface workshop on newly developed fabric flexural rigidity tester, yarn
characterisation unit and fabric electrical insulation tester for technical textiles
Anindita Sengupta & Surajit Sengupta
220

Book Review

Principles of fabric formation
by Prabir Kumar Banerjee; reviewed by Raul Fangueiro
222
