431 Review of Indian research on innovative breakwaters: Rajendra, K, Balaji, R & Mukul, P

RESEARCH ARTICLES

453 Anisotropic multi-component seismic identification of gas hydrate in deep water environments of Shenhu area in the South China Sea: Qing Wang, Yun Wang, Zhiwei Liu & Shiguang Guo

462 Relocating ocean-bottom seismometers: Youwei Han & Xiangchun Wang

466 Discussion on a general formula of sediment diffusion coefficient and sediment fluctuating intensities in the sediment-laden flow: FENG Qing, LI Xiao-ping, ZHENG Yan-shuang

480 Climate change and biological productivity: Indian Ocean: Meghal Shah, Neera Chaturvedi, Himanshu Pandya & Ajai

493 Towards attaining sustainable fishing operations in Kerala: Sunil S. Ail, J.Jayasankar, M.Krishnan, Asha Landge & Latha Shenoy

497 Diversity and decolorization potential of fungi isolated from the coral reef regions off Kavaratti, India: Kaliyan Barathikannan, Kesava Priyan Ramasamy, Cathrine Sumathi Manohar & Ram Murti Meena
Post M-9 event changes on bathymetry and sediment characteristics of innershelf zone off Kayamkulam, southern Kerala, India: Tiju I. Varghese, T.N. Prakash & T.S. Shahul Hameed

Estimation of Undrained Shear Strength of Konyaalti Silty Clays: Bülent Cangir & Nihat Dipova

Prediction of bed ripple geometry under controlled wave conditions: wave-flume experiments and MIKE21 numerical simulations: H. Daghigh, A. Karami Khaniki, A. A. Bidokhti & M. Habibi

Monitoring land use/cover changes using remotely sensed imagery in Isfahan, Iran: Mozghan Ahmadi Nadoushan, Maryam Foroughi Abari, Hadi Radnezhad, Masoumeh Sadeghi

Reduced-order optimal controller design for an underwater glider: Farahnak Pedram, Azinpour Erfan & Zarabadipour Hassan

Population dynamics of Randall’s threadfin bream Nemipterus randalli from Pakistani waters, Northern Arabian Sea: Muhsan Ali Kalhoro, DanLing Tang, HaiJun Ye, Evgeny Morozov, Qun Liu, Khadem Hussain Memon & Muhammad Talib Kalhoro

Distribution pattern and community structure of sea cucumbers (Class: Holothuroidea) in different biogeographic regions of the selected Islands of Lakshadweep Archipelago, India: Idreesbabu K.K. & S. Sureshkumar

Applications of CEDA (catch effort data analysis) computer software in estimation of Maximum Sustainable Yield of the Black Pomfret Parastromateus niger Fishery from Pakistani Waters: Khadim H.MEMON, Qun LIU, Qurat-ul-ain SHAikh, Muhsan A.KALHORO, Mohammad S. CHANG, Aamir M. MEMON, Majeeda RUK & Safdar Ali UJJAN

Biochemical studies on the live feed polychaete, Nereis sp., in relation to maturity stages: Sunil Kumar Sahu, Reena Singh, Perumal Murugesan, Samikkannu Muthuvelu & Kandasamy Kathiresan
Distribution and zonation pattern of mangrove forest in Shoal Bay Creek, Andaman Islands, India: E. Yuvaraj, K. Dharanirajan, S. Jayakumar, Saravanan & J. Balasubramaniam

Potentials of Rare earth and other Placer mineral Occurrence along the Northern Karnataka Coast, India: V. S. Hegde, Shalini, G., Kanchan Gouri, S. K., Girish, G. K., Lavanya, G., Krishnaprasad, P. A. & Tejaswini, N. Bhagwat

Diversity and ecological distribution of endophytic fungi associated with salt marsh plants: K. Indira & M. Srinivasan

New records of *Thracia adenensis*, melvill, 1898 (mollusca: bivalvia: Thraciidae) from India: Srinivasa Rao M, C. Annapurna & Ch. Vijaya Bhanu

Performance of Underwater Acoustic Channel using modified TCM OFDM coding techniques: N. R. Krishnamoorthy & C. D. Suriyakala
