## CONTENTS

### Atomic and Molecular Physics

- Study of spectroscopic properties, thermodynamic, NBO, quantum chemical calculations and Curie plot of 3'-(trifluoromethyl)acetophenone 799  
 V Balachandran\*, S Lalitha & S Rajeswari

### Electromagnetism, Optics, Acoustics, Heat Transfer, Classical Mechanics and Fluid Dynamics

- Dual solutions of three dimensional MHD boundary layer flow and heat transfer due to an axisymmetric shrinking sheet with viscous dissipation and heat generation/absorption 812  
 Dinesh Rajotia\* & R N Jat

### Condensed Matter: Structural, Mechanical and Thermal Properties

- Investigation on the properties of L-serine doped zinc tris (thiourea) sulphate crystal for NLO application 821  
 F Helen & G Kanchana\*

### Condensed Matter: Electronic Structure, Electrical, Magnetic and Optical Properties

- Effect of MoO<sub>3</sub> in the cathode buffer layer on the behaviour of layered organic solar cells 829  
 K El Assad Zemallach Ouari, Z El Jouad, K Benchouk, B Kouskoussa, L Cattin, M Makha, A Khelil, M Morsli, M Addou & J C Bernède\*

- Structure, surface morphology and optical properties of BaTiO<sub>3</sub> powders prepared by wet chemical method 839  
 R Sengodan, B Chandar Shekar\* & S Sathish

### Interdisciplinary Physics and Related Areas of Science and Technology

- Systematic synthesis of OTA-based Wien oscillators 846  
 Yong-an Li

- Novel design of compact wideband planar metal antenna 851  
 S Mondal\* & P P Sarkar

- Annual Author Index 857

- Annual Keyword Index 861

- Acknowledgement to Reviewers 866
